---

July 15, 2010

Greetings,

Stanion and Barton Community College have teamed up to bring you the **2010 Industry Technology Showcase**. The purpose of this event is to let local and regional businesses know about the technology, training and expertise that is available right here in Barton County. Mike Baugh, with Barton Community College's Natural Gas Pipeline Technician Program, will provide sample training demonstrations of Allen Bradley's ControlLogix Programmable Logic Controllers, as well as DeviceNet and ControlNet networks for commercial and industrial applications. Stanion will supplement the day with product and demonstrations of state of the art automation and control equipment.

This is a casual come and go event, scheduled to take place August 4, 2010 from 10AM – 4PM.

Lunch will be provided between 11:30 and 1:30. To help coordinate food arrangements, please RSVP to Stanion (620) 792-2569 to confirm your attendance.

The Showcase will be held at the Midwest Utility Pipeline Training Center on the Barton Community College Campus, next to Cougar Field.

Hope to see you there!

Sincerely,

Ron Harms  
Branch Manager  
(620) 792-2569
