

# CONNECT with the best

## Complete Assembled Products Offering

CCI's full line of wire and cable products includes a broad assortment of indoor and outdoor cord sets for virtually every application. Coleman Cable's electrical construction products include temporary power, portable lighting, surge protectors, power strips, power distribution and electrical wire and cable products.

Coleman Cable set the industrial industry standard with its Polar/Solar® and Yellow Jacket® cords, which are still the toughest, most flexible cords available today. We continue to be the largest US manufacturer of extension cord products and our brands are some of the strongest and most respected in the wire and cable industry.

Coleman Cable has multiple displays to help merchandise your cord set products.

**Contact your CCI Representative for your special display offer.**
