

Local Support Capabilities

- PlantPax Sizing Concept Engineering & System Design
- Experienced Local Solution Delivery Partners
- 24/7 - 365 Technical Support with Modern Day Equipment
- Local Spare Parts Inventory Network
- Server Configuration and Testing with Stratus Technologies
- Complete Turnkey Systems, Panels, Servers, UPS
- Variable Frequency Drive Sizing and Configuration Assistance
- Heat Trace System Design and Engineering
- Motor Control Center Design
- Distributor Led Strategic Services

Team of Local Specialists

- Automation – Controllers, I/O, Visualization and HMI
- Power & Control – Variable Frequency Drives and Motion
- Industrial Control Components, Transmitters, Safety & Sensors
- MCC – Low and Medium Voltage Motor Control Centers
- Services – Training, Parts Management Programs, Parts Repair and Remanufacturing, Software and Technical Support
- Networks, Security & Information – Infrastructure, Network Architecture & Switch Management
- Process Solutions – Process System Servers, Workstations & Thin Client

Partner Solutions

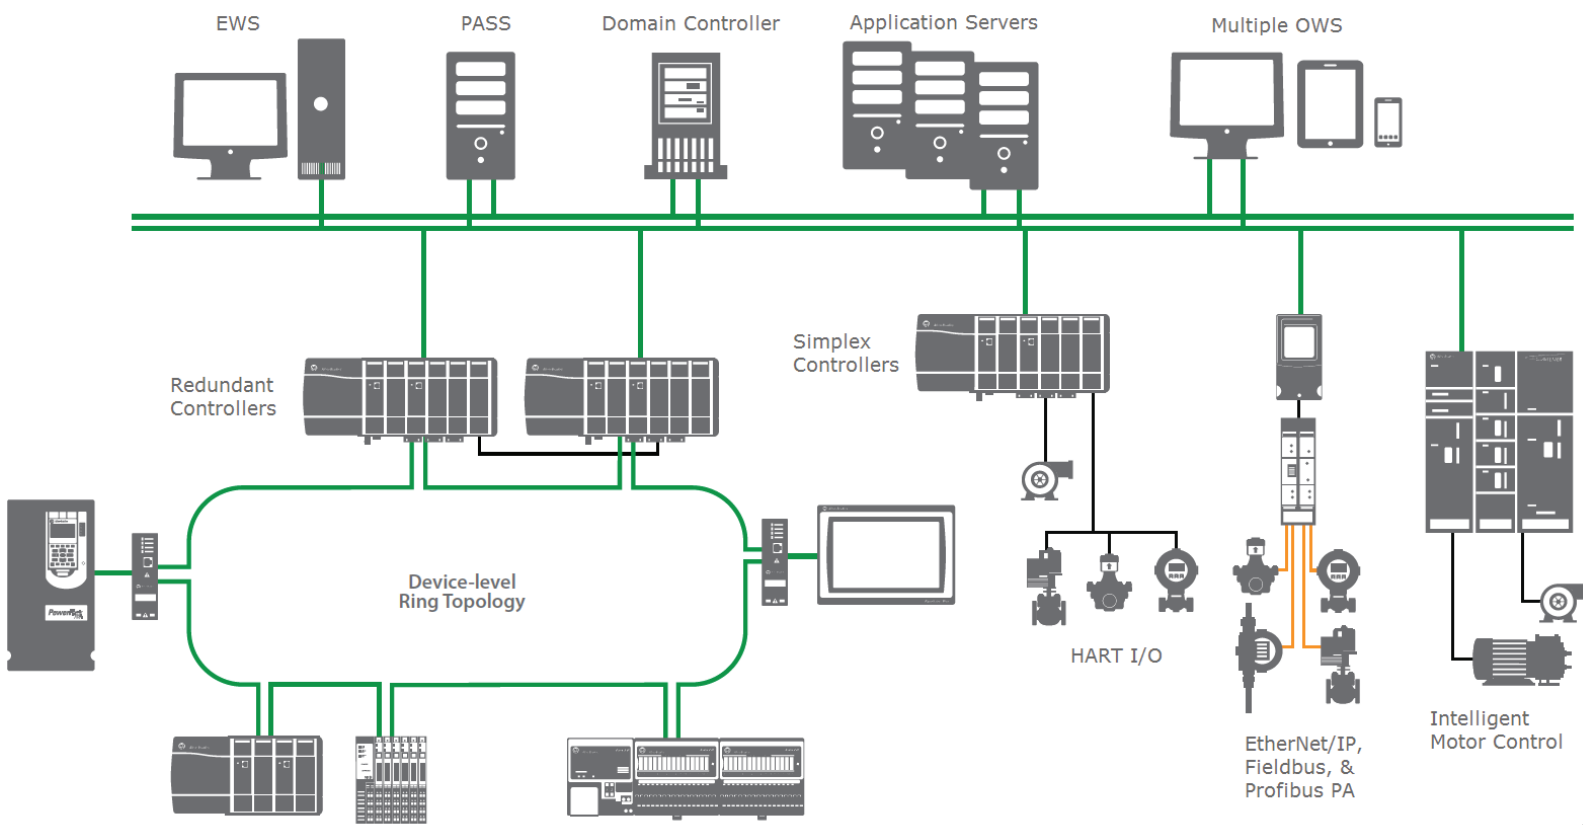

- Cisco Secure, Critical Network Management
- Endress+Hauser Transmitters, Control & Valves
- Fluke Calibration & Measurement Tools
- Heritage Custom Stainless Steel Enclosures
- Panduit Integrated Network Zone System
- Pavilion Predictive Modeling for Plant Optimization
- ProSoft Communication Bridges, Gateways & Software
- Pentair Heat Trace Systems
- Stratus Technologies Redundant Server Solutions
